

Georgia's Charter Schools

2016-2017 and 2017-2018

The Georgia
Department of
Education's District
Flexibility and
Charter Schools
Division's 2017
Annual Report
submitted on behalf
of the State Board of
Education

Richard Woods, Georgia's School Superintendent
"Educating Georgia's Future"

Georgia General Assembly
State Capitol Building
Atlanta, GA 30334

December 22, 2017

Dear Members of the Georgia General Assembly,

Georgia law requires all charter schools to submit an annual report to the Department of Education each year and the State Board of Education to report to the General Assembly each year on the status of the charter system program [see *O.C.G.A. § 20-2-2067.1(c) and § 20-2- 2070*]. To facilitate the meeting of these requirements, the Georgia Department of Education's District Flexibility and Charter Schools Division each year conducts an Annual Report process for charter schools. The Department then compiles the Annual Report data along with academic assessment data and prepares and conveys to the General Assembly this report on behalf of the State Board of Education. The 2017 Charter Schools Annual Report is before you now.

The State Board of Education in August 2017 adopted revised Charter School Rules to implement legislative changes from the 2017 session and make other changes. Revisions to the rules included clarifying the definition of Education Service Provider and that charter schools cannot require parent/guardian volunteer commitments as a condition of enrollment in the school; adding a requirement that charter school petitioners provide a description of how its governing board, students, faculty, and staff will be representative of the community diversity in its proposed attendance zone; clarifying that the local district must provide the assurance to the Department regarding a new charter school achieving ready-to-open status; and clarifying that the local board of education and the Georgia Department of Education must evaluate a charter school's performance annually using the Department's performance work (or an alternate approach approved by the Department).

Thank you for your ongoing dedication and hard work in helping to strengthen Georgia's public education system.

Sincerely,

Scott Johnson, Chair
Kevin Boyd, Co-Chair
District Flexibility and Charter Schools Committee, State Board of Education

Brief History of Charter Schools in Georgia

Georgia's first charter school law was passed in 1993. It allowed for the creation of conversion charter schools only and Georgia's first three conversion charter schools were approved in 1995. The charter schools law was expanded in 1998, allowing for both locally-approved and state chartered special schools. Oglethorpe Charter School was the first locally-approved start-up charter school. It opened in the Savannah-Chatham County School System. In 2001, the first two state chartered special schools opened, Charter Conservatory for Liberal Arts and Technology (CCAT) and Odyssey School, which added Georgia's first virtual school -- the Georgia Cyber Academy -- as a program in 2007. In 2008, the charter law was changed to establish the Georgia Charter Schools Commission, with the first Commission schools opening in 2009. In 2011, the Georgia Supreme Court ruled the Commission law unconstitutional, but in 2012 a constitutional amendment was overwhelmingly approved by Georgia voters to allow for a new State Charter Schools Commission (SCSC). The first members of the SCSC were appointed by the State Board of Education in 2013 and they have been busy working to create high quality state charter schools since then.

2017-18 Charter Schools

Georgia now has 113 charter schools serving students statewide. There are 12 Conversion Charter Schools, including 2 Georgia College and Career Academies. There are 72 locally-approved start-up charter schools, including 22 Georgia College and Career Academies. Finally, there are 29 State Charter Schools.

Historical Growth of Charter School Enrollment in Georgia

With a net increase of seven (7) new charter schools, there are an additional 2,157 students served in charter schools for the 2017-18 school year.

Demographics of Charter Schools versus State

The racial and ethnic composition of Georgia charter schools is different than of the state. Differences for locally-approved Start-up Charter Schools include serving a significantly lower percent of White (27.4% to 39.8%) and Hispanic (6.0% to 15.9%) students and a significantly higher percent of Black students (62.6% to 36.2%) than the state. Differences for State Charter Schools include serving a significantly higher percent of White students (46.4% to 39.8%) and a significantly lower percent of Hispanic (8.2% to 15.9%) and Asian (1.0% to 4.1%) students than the state. Conversion Charter School differences include serving a significantly higher percent of Asian students (8.1% to 4.1%) and a lower percent of Hispanic students (14.1% to 15.9%) than non-charter schools.

School Type	White	Black	Hispanic	Asian	Indian	Pacific	Multi
All Charter Schools	35.4%	47.0%	8.4%	2.6%	0.1%	*	4.8%
Conversion Charters	36.7%	32.5%	14.1%	8.1%	*	*	1.7%
Start-Up Charters	27.4%	62.6%	6.0%	2.3%	*	*	7.7%
State Charter Schools	46.4%	40.5%	8.2%	1.0%	*	*	3.8%
Statewide	39.8%	36.2%	15.9%	4.1%	0.2%	0.1%	3.6%

Support Services for Charter Schools versus State

The Special Education, English Language Learners (ELL), and Free and Reduced Lunch (FRL) eligibility composition of Georgia charter schools are different than that of the state. Conversion Charter School serve a lower percent of Special Education students (10.0% to 13.4%), ELL students (6.9% to 7.7%) and FRL students (60.7% to 66.3%) than the state. Locally-approved Start-up Charter Schools serve a significantly lower percent of Special Education students (8.6% to 13.4%), ELL students (4.3% to 7.7%) and FRL students (60.0% to 66.3%) than the state. State Charter Schools serve a significantly lower percent of Special Education students (9.6% to 13.4%), ELL students (1.6% to 7.7%) and FRL students (42.1% to 66.3%) than the state.

School Type	Special Education	English Language Learners	Free and Reduced Lunch Eligibility
All Charter Schools	11.7%	7.0%	65.3%
Conversion Charters	10.0%	6.9%	60.7%
Start-Up Charters	8.6%	4.3%	60.0%
State Charter Schools	9.6%	1.6%	42.1%
Statewide	13.4%	7.7%	66.3%

School Climate Star Rating

The National School Climate Center defines school climate as “the quality and character of school life” that is based on the “patterns of students’, parents’, and school personnel’s experiences of school life.”¹ School climate can be influenced by the norms, goals, values, interpersonal relationships, instructional practices, and organizational structures within a school. Research has found that schools with positive school climates tend to have better test scores and graduation rates; in contrast, schools with negative school climates as a result of unsafe or hostile environments tend to have lower academic performance.²

A sustainable, positive school climate supports people feeling socially, emotionally and physically safe. In a positive school climate people are engaged and respected. By contrast, disruptive and aggressive behavior such as threats, bullying, teasing and harassment creates a hostile school environment that interferes with academic performance. A hostile school environment fosters increased absenteeism and truancy because students feel unsafe at school. If a child is not physically and mentally in attendance, learning cannot take place.

Georgia is the first state in the nation to include school climate as an early indicator in its academic accountability system, the College and Career Ready Performance Index (CCRPI). The School Climate Star Rating is a diagnostic tool to determine if a school is on the right path to school improvement. Up to five stars can be awarded.

Charter School Accountability

CCRPI Comparison

Charter school CCRPI rose 2.2 points between 2016 and 2017, while the statewide score increased by 2.1 points.

CCRPI Comparison – Charter Type

Each type of charter school (Start-up, Conversion, and State Charter) increased their CCRPI from 2016 to 2017. Conversion Charter Schools continue to outperform the state for 6 straight years. Locally-approved charter schools increased their score by 3.9, State Charter – Non-Virtual Schools had an increase of 3.2 points between the 2016 school year and the 2017 school year.

Charter Schools Overview

The following pages provide an overview of each charter school in the state. They are sorted by the authorizer (local district or State Charter School Commission) that approved the charter contract. The State Charter Schools are included together.

The first section includes the number of non-charter schools in the system, the number of charter schools in the system, enrollment numbers, and the charter school list.

The second section provides detailed demographic information of the system as well as the charter schools. The charter school data is presented separately from the system data.

The third section provides detailed support services (Special Education, English Language Learner, and Free and Reduced Lunch percentages) information of the system as well as the charter schools. The charter school data is presented separately from the system data.

The remaining sections provide the academic accountability data.

Beating the Odds - is a complement to CCRPI as an accountability measure in performance contracts between locally-approved charter schools, districts, State Charter Commission, and the State Board of Education. Schools that “Beat the Odds” may have low CCRPI scores and/or gaps in performance. In addition, schools with high CCRPI scores sometimes do not “Beat the Odds” if they are performing lower than other schools with similar characteristics. Additional information about BTO can be found on [GOSA’s website](#). In addition to technical documentation, GOSA recently published a [two-page summary](#) of the current BTO model to help school- and district-level staff better understand it. It includes FAQs and a graphic that illustrates how the model works.

KEY:

Beat the Odds	Did Not Beat the Odds
---------------	-----------------------

College and Career Ready Performance Index (CCRPI) - CCRPI is a comprehensive school improvement, accountability, and communication platform for all educational stakeholders that will promote college and career readiness for all Georgia public school students. CCRPI is also a measure in performance contracts between locally-approved charter schools, districts State Charter Commission, and the State Board of Education. Schools are challenged to increase their CCRPI score each year. They are also compared to the “district” scores and to state scores. Additional information about CCRPI can be found on [GaDOE’s website](#).

KEY:

CCRPI Compared to Previous Year – No color represents the first year of CCRPI score

Increased CCRPI	Did not increase CCRPI	School not in operation
-----------------	------------------------	-------------------------

CCRPI Compared to District – District score is by Grade Band (E ,M, H, EM ,MH, or EMH)

CCRPI Score Higher than District	CCRPI Score Lower than District	Only School in that Grade Band in District	School not in operation
----------------------------------	---------------------------------	--	-------------------------

CCRPI Compared to State – State score is by Grade Band (E,M,H,EM,MH,or EMH)

CCRPI Score Higher than State	CCRPI Score Lower than State	School not in operation
-------------------------------	------------------------------	-------------------------

CCRPI, 2012-2017 Charter Schools – Line graph comparing all charter schools in the district against the total district score (minus challenge points) as well as the state.

Atlanta Public School Charter Schools:

Number of Non-Charter Schools in the System: 71

Number of Charter Schools: 15 Locally-Approved Start-up Charters School, 1 Conversion Charter School

Enrollment: APS – Non-Charter Schools: 43,496

Charter Schools: 8,651

Charter School Rules – 2017 Update

The State Board of Education in August 2017 adopted revised Charter Rules to implement legislative changes from the 2017 session and to make other changes. The revised rules include the following changes and/or additions.

160-4-9-.04 Charter Schools and Charter Systems Definitions

- Add the federal definition of Academically Poor Performing Charter School as required by the U.S. Department of Education's Charter School Program State Educational Agencies (SEA) Grant terms and conditions for the Georgia Department of Education.
- Add definitions for Charter Management Organization, Education Management Organization, Education Service Organization, and the Department's charter performance framework.
- Clarify the definition of Education Service Provider.
- Clarify the definition of substantially detrimental to include the physical and/or mental health, safety, and welfare of students and/or faculty.

160-4-9-.05 Charter Schools Petition Process

- Clarify that the maximum charter term for all charter school contracts is five (5) years.
- Clarify that any federal, state, and local rules and regulations, court orders, and statutes related to the physical and mental health and safety of school students, employees, and visitors cannot be waived by charter schools or charter systems.
- Clarify that charter schools cannot require parent/guardian volunteer commitments as a condition of enrollment in the school.
- Add requirement that charter school petitioners provide a description of how its governing board, students, faculty, and staff will be representative of the community diversity in its proposed attendance zone.
- Clarify that charter school employees are prohibited from serving on the school's governing board unless otherwise stipulated by the Department.

160-4-9-.06 Charter Authorizers, Financing, Management, and Governance Training

- Clarify that the local district must provide the assurance to the Department regarding a new charter school achieving ready-to-open status.

- Clarify that the local board of education and the Georgia Department of Education must evaluate a charter school's performance annually using the Department's performance work (or an alternate approach approved by the Department).
- Clarify that charter schools must maintain their school records, including school policies, budgets, and governing board meeting materials, and make them available for public inspection via an online school website pursuant to the Georgia Open Records Act.
- Clarify that a charter school or charter system may be placed on probation or terminated for failure to meet one or more of the standards given in the Department's performance framework.
- Clarify the permitted financial governance training providers for new and returning charter school governing board members.
- Clarify the training requirements for college and career academy governing board members, including the number of hours, topics, and permitted training providers.

Acknowledgements

A special thank you from the GaDOE District Flexibility and Charter Schools Division to the following individuals and teams for their contributions to this report.

State Board of Education District Flexibility and Charter Schools Committee
